THE BEST KEPT SECRET IN TRAVEL

Here's what you should know...

1

THE "ZERO-FEE" MODEL

You might wonder how my services are free to you. It's simple: Travel suppliers (hotels, airlines, and resorts) pay me a commission for bringing them quality bookings.

You pay the same price—and often less—than you would find online, but you get a professional travel expert for free.

2

ACCESS BEYOND THE INTERNET

The "best deals" aren't always on public search engines. I have access to "agent-only" back-end systems and contract rates that are hidden from the general public.

This means more value, room upgrades, and "hidden" perks you can't click your way into.

3

THE HUMAN SAFETY NET

When you book via a giant website and something goes wrong (a flight is canceled or a hotel is overbooked), you have to wait in a 4-hour phone queue with a chatbot.

When you book with me, you have my direct WhatsApp. I fix the problem while you're at the hotel bar.

4

TOTAL FINANCIAL SECURITY

Booking direct often leaves you "self-protected." Because I am part of the ABTA/ATOL family, your money is legally protected.

If a supplier fails, your holiday (and your hard-earned cash) is safe.
